Owner DBR Condo Unit #1016

I am currently married with 4 children and reside in central Florida. I have been a Florida resident since the age of 6, when my father became stationed and retired out of MacDill Airforce Base at Central Command. At the age of 18, I became a volunteer firefighter for Hillsborough County. During my time as a volunteer, I held the position of Vice President of the Board of Directors. During that time, I worked in the hydraulic industry for about 8 years. My services included engineering, constructing, and repairing hydraulic machinery. Many of those contracts were with large corporations such as Lockheed Martin.

I became a full-time professional firefighter/paramedic at age 28. I am currently employed full time with Hillsborough County Fire Rescue. My current position is Engineer of a Truck Company. Our duties include but are not limited to special rescues such as entrapment, below grade confinement, high-angle rescues, elevator rescue, and search/rescue of interior firefighting. As a special rescue technician with a ladder company, it is my responsibility to have knowledge of residential and commercial building construction. As a firefighter, I work well under stressful conditions, and I always prioritize my crew/team first when making important decisions.

My position with the DBR COA Board started at the end of summer 2022. As a condo owner, I wanted to assist to clear up past matters and current issues so that all condo owners can have a resort that thrives. I wanted to make sure all our hard-earned money is being allocated and spent on what is our responsibility as owners and not what we have been forced to pay, outside of the easement agreement, in the past, due to fearful consequences.

I would like to continue my position with the COA Board to ensure the transition continues as agreed upon, monitor the progress of restoration of the resort to protect the owners' investment(s), and continue to be a strong voice of reason when representing the association.
