**Srinivas (Sri) Sama**

My name is Sri Sama, and I am running for a position on the Board of Administration for DBR. With over 30 years of experience as a Software Architect at IBM, I have a deep background in both traditional and cutting-edge technologies. In addition to my career in information technology, I have been a real estate investor for two decades, with a portfolio that includes properties across Florida.

I am currently the Secretary of a condominium association in Daytona Beach Shores and have previously served as Vice President at a similar condo-hotel in Orlando. This experience provides me with invaluable expertise in board administration. I am adept at identifying opportunities to enhance investments and increase their value. My skills lie in pinpointing areas for improvement, streamlining expenses, and finding avenues for immediate value addition. My awareness of evolving market dynamics allows for the proactive identification of necessary improvements.

I share the same goal as many of you: to see DBR return to its former glory. Achieving this requires strong, experienced leadership from individuals with a proven track record. I believe my extensive experience in both technology and real estate investment provides me with a unique problem-solving perspective that can be seamlessly applied to optimize returns through astute market analysis and strategic diversification.

To move our community forward sustainably, we must shift from an over-reliance on special assessments and lawyers. Instead, our focus should be on expanding revenue streams and making informed, strategic decisions on the major projects that lie ahead. With the right leadership and a forward-thinking approach, we can restore DBR and ensure its long-term stability.

I am committed to upholding the condo rules and regulations to ensure equity is maintained for the benefit of all unit owners. It is my unwavering conviction to protect the value of our property while representing every owner equitably.

I strongly endorse other candidates on our team as well - Venkat (Vic) Iyer, Jena Marie, Ted Thuli, and Thomas Ventura.
